

## RT Outsourcing Services Pvt Ltd extends its reach in APAC region with a new subsidiary

RT Outsourcing Services Pvt Ltd has announced extension of its reach in APAC region with the opening of its subsidiary **RT Technical Services Pte Ltd**. Commenting on the opening of the office in Singapore Mr. Sanjeev Kakar, Director, RT Outsourcing Services said “***this will fulfill the long term demand of our customers for taking care of their growing requirements of reverse logistics in APAC region***”. The new entity will focus on expanding the core business of RT Outsourcing of providing its customers with the cost effective reverse logistics solutions. RT Outsourcing had been in recent years expanding its reach in APAC region with the constant demand from the partners for **Repair and RMA services**, technical help desk and trainings of technical manpower. With the new subsidiary in place it will extend this reach to building support for taking integrated project services **and large volume repairs for its APAC clients for its** global repair centre **being** set up **in** a 100% export oriented zone **in India**.

RT Outsourcing started operations in India in 1995 and is today the largest Integrated reverse logistics player in India providing an Integrated Service Solution for After Market Services for Fortune500 IT, Telecom and CE **companies**. RT Outsourcing is a strong player with PAN India presence **with a** network of over 300 service centers, backend repair and refurbishment centers covering 170 cities across the SAARC region. **It** employs over 3,000+ **technical staff** and is expanding its operations to support year-on-year growth rate of 60% CAGR for the next 3 years. **The Company** has **been awarded under the** Deloitte Technology Fast 50 India program conducted by Deloitte Touche Tohmatsu for 2007 & 2008 in a row. The program was initiated in 2005 by Deloitte Touche Tohmatsu to recognize the world's fastest growing and dynamic technology companies. **The Company** also won the **Deloitte** Technology Fast 500 Asia Pacific program for 2008. To maintain and further this double digit growth rate in 2009, RT is further consolidating its position as integrated single window service provider in reverse logistics supply chain in the APAC region.
