

RT Wins Deloitte Technology Fast 50 India 2008 Program

RT has once again stamped its class as number one service provider in the country. This time the acceptance has come in the form of **Deloitte Technology Fast 50 India 2008 Program** conducted by Deloitte Touche Tohmatsu, Asia Pacific. The above mentioned award which was constituted in 2005 and is annually conducted by Deloitte Touche Tohmatsu (DTT) is given in the category of internet, biotechnology, medical and computers/hardware, is looked at with great respect throughout the business community.

The Technology Fast 50 India program is part of an integrated global program which recognizes the world's fastest growing and most dynamic technology companies both in private as well as public sector.

The program is aimed at recognizing the fastest growing technology companies in India based on their percentage revenue growth over the past three financial years. With winning this program RT has once again proved that when it comes to providing customer support RT leads the pack in the country.

Within a few days RT has won two awards (Deloitte Technology Fast 50 India 2008 Program, Tie Entrepreneur Excellence Award) of repute and stamped its authority in the business circles.
