

RT Outsourcing Services Ltd Receives Two More Global Certifications

New Delhi, India, 25 June, 2009: RT Outsourcing Services Ltd (RT) is now a proud owner of two more globally accepted certifications. It is now being recognized with ISO14001:2004 EMS (Environmental Management System) and OHSAS 18001:2007 (Occupational Health and Safety Management Systems).

ISO14001:2004 EMS (Environmental Management System) is a certification that specifies a set of environmental management requirements that need to be fulfilled by an organization. Corporate Social Responsibility and environmental issues are essential for every organization. RT being well aware about its responsibility takes a step ahead in this direction with this certification. This organization is recognized towards directing its efforts for protecting the environment, preventing pollution and improving the environmental performance by controlling the impact of its organizational activities.

OHSAS 18001:2007 (Occupational Health and Safety Management Systems) is a specification that addresses occupational health and safety standard. RT shows its concern in taking care of the safety measures within the organization while being aware about the well being of the employees. This certification is a recognition for RT 's efforts into maintaining a congenial and safe work environment for its employees. Also creating an impact upon increasing the organization's output while serving its clients in a better manner throughout its processes.

Having come all this way RT looks forward towards more such milestones while on its path towards continual growth and success.
